Annex 2:	Non-binding study plan
Annex 3:	Non-binding study plan for double-degrees
Annex 4:	Sample study plan arrangement

§ 1 Scope of application (Additionally § 1 ASPO)

¹The terms of the universal study and examination regulations for Bachelor and consecutive Master courses of study (ASPO) at Europa-Universität Viadrina Frankfurt (Oder) from 27.01.2016, last revised by amendment articles from 02.11.2016, for the study program International Business Administration with the degree Master of Science at the Faculty of Business Administration and Economics at Europa-Universität Viadrina Frankfurt (Oder), are added to and explicated as follows:

§ 2 Objective of studies (Additionally § 1 (2) sentence 2, no. 1 ASPO)

(1) ¹The study program is designed to teach students scientific reasoning and responsible behavior and to contribute to their personal development. ²At the end of their studies, students should have acquired specific knowledge displaying grasp of the international dimension of economic activity and its social implications and to be able to independently apply the scientific tools they have learned to practical problems. ³Primary objective of the academic education at the Faculty of Business Administration and Economics is to learn appropriate methods, which allow the identification, formulation and scientific treatment of individual and collective economic problems. ⁴A goal of the education is also the professional ability of the students. ⁵The required practical qualifications for professional capability cannot and are not supposed to be imparted by the university.

(2) ¹In correspondence with the faculty structure, particularly its international orientation, there is a big emphasis on the international economic aspects throughout the education. ²Therefore the program strives to ensure profound education in economics in combination with acquiring intercultural skills in internationally oriented modules. ³Special attention is being paid to multidisciplinary aspects of subject matter.

(3) ¹This consecutive Master degree program is a strongly research-oriented course of study, in which, in addition to the theoretical knowledge, methodological skills are taught, which allow

¹ The following text is a translation of the study-specific regulations for the study program International Business Administration (Master) .Only the German language versions of these regulations are valid for all official and legal purposes. The English language version is provided merely as a guide.

students to expand their scientific knowledge independently. ²Research methods and strategies are of central importance in the teaching content. ³In this way, the Master program serves not only as preparation for practical work, but also as preparation for scientific work.

§ 3
Degree
(Additionally § 1 (2) sentence 2 no. 2 i.c.w.
§ 2 (2) ASPO)

Upon successful completion of the Master studies, the student is awarded the academic degree "Master of Science" (abbr. M.Sc.).

§ 4
Beginning of studies
(Additionally § 1 (2) sentence 2 no. 5 ASPO)

Studies can begin in the winter and summer semesters of each year.

§ 5
Recognition of periods of study, academic and examination achievements as well as recognition of extracurricular knowledge and skills
(Additionally § 12 ASPO)

(1) The recognition of periods of study, academic and examination achievements as well as recognition of extracurricular knowledge and skills is regulated by § 12 ASPO.

(2) ¹The applicant has to present the necessary information about the achievement of which recognition is requested. ²The recognition is a result of an examination of the documents provided by the applicant. ³In the case of refusal by the responsible examination board for the achievement to be recognized in accordance with § 12 (1) sentence 1 ASPO, a recognition assessment will be carried out at the written request of the student to the responsible examination board, given that the student provides credible evidence of having acquired the relevant knowledge and skills elsewhere. ⁴The recognition assessment is to be carried out by a university professor of the of Business Administration and Economics, who is authorized to carry out such an assessment and is appointed by the responsible examination board. ⁵The form of this recognition assessment is to be determined by the examination board upon consultation with the abovementioned authorized professor in accordance with § 23 (5) sentence 1, (6) sentence 1 ASPO, taking into account the qualification objectives to be achieved for the module to be recognized and the selection of the forms of assessment, specified in § 7 (1) of these regulations, and of the respective scope of examination.

(3) ¹If the examination is passed with at least "sufficient" ("ausreichend") the achievement counts as recognized. ²In the event of failure to pass the assessment the student concerned must be informed of the decision of the examination board to

reject a recognition in accordance with § 12 (6) sentence 1 ASPO and the reasons must be given to him/her.

§ 6
Standard study period, structure of studies, forms of teaching, mobility window
(Additionally § 1 (2) sentence 2 no. 6, § 4 (2), § 5 (1) sentence 2 to 4, (2) sentence 2, § 7 (1) and (2), § 18 sentence 1 ASPO)

(1) ¹The standard period of study is four semesters. ²The study program comprises of 120 ECTS-Credits (in the following: Credits). ³At least 25 percent of these are to be provided in English.

(2) ¹Students are free to choose in what order they complete the examinations. ²The specific information on the course's frequency and possible existing admission requirements of the modules listed in the module descriptions must be considered. ³The non-binding study plans attached in Annexes 2 and 3 provide an example of a reasonable structuring of the studies.

(3) ¹The program comprises modules from the core areas of business administration and economics, modules from the interdisciplinary area such as Law or Cultural and Social Sciences, the teaching of key qualifications and the Master thesis with the final colloquium. ²The program can be studied in five alternative study options. ³The study options offered allow students to specialize according to their functional interests.

(4) ¹The Faculty has introduced four alternative tracks for the function-oriented, subject-specific education which have the following titles:

- Finance, Accounting, Controlling & Taxation (FACT)
- Finance & International Economics (FINE)
- Data Science and Decision Support (DSDS)
- Management & Marketing (M & M).

²A Function-oriented, subject-specific education focuses on one of the four tracks.

(5) ¹Students may alternatively choose a broader cross-functional education. ²It is intended to give students the opportunity to create for themselves a meaningful combination from the entire modules offered in the four tracks. ³This cross-functional program is the study of a General Business Administration.

(6) ¹In the function-oriented subject-specific study variants, students must take the following modules:

- Track-specific modules in the amount of at least 60 credits (in track DSDS at least 72 credits) and at most 96 credits,
- Modules of other tracks and non-business/economics modules amounting to a maximum of 36 credits (in DSDS a maximum of 18 credits), of which a maximum of 18 credits from non-business/economics modules.

²The module catalog (Appendix 1) specifies whether the modules must be selected as part of the function-oriented subject-specific training in the respective track (compulsory modules) or can be selected (compulsory elective modules). ³The Examination Committee may add further modules to the module catalog. ⁴The addition will be announced by notice or suitable electronic systems. ⁵If students are studying within the framework of a double degree agreement, deviating regulations from sentences 1 and 2 can be made.

(7) ¹In the cross-functional study variant, students must take the following modules:

- Modules from at least two of the four tracks offered for a minimum of 78 credits and a maximum of 96 credits,
- Non-business/ economics modules amounting to a maximum of 18 credits.

²The module catalog (Appendix 1) specifies whether the modules must be selected as part of the cross-functional training (compulsory modules) or can be selected (compulsory elective modules). ³The examination board may add further modules to the module catalog. ⁴The addition shall be announced by means of a notice or suitable electronic systems. ⁵If students are studying within the framework of a double degree agreement, deviating regulations from sentences 1 and 2 can be made.

(8) ¹Forms of the offered courses are, in particular, lectures, exercises, tutorials, colloquiums, seminars, projects, excursions, workshops and project days. ²Events with coordination and variety aspects are shown separately.

(9) ¹The international orientation of the study program must be considered, usually in the second or third semester, when one semester with the minimum duration of three months must be completed in a foreign university (study stay abroad). ²A recognition of the study abroad in accordance with sentence 1 shall only be granted if at least 12 credits have been earned and proven during this study stay. ³A study abroad in the sense of these study-specific regulations is a stay at an approved foreign university with the right to award doctorates. ⁴As a matter of principle, the achievements to be recognized must not be delivered in the student's native language. ⁵The recognition of study and examination achievements from a foreign university comply with § 12 ASPO.

(10) ¹In justified exceptional cases the responsible examination board can exempt students, upon request, from pursuing the studies abroad referred to in paragraph 10, sentence 1. ²Such a request shall be justified in particular

- In the case of students who take care of children and/or close relatives,
- In the case of students with disabilities and/or chronic illnesses,
- for students who have already completed a study period abroad as defined in paragraph 9, sentences 1 and 2.

³Students who do not complete a study abroad in accordance with paragraph 10, sentence 1, must successfully complete examinations of at least 42 credits during the course of study, the teaching and examination language of which must not be German

(11) ¹In addition to paragraph 9, the faculty offers students the opportunity to obtain a double degree with selected partner universities abroad. ²In this case, students must spend at least two semesters at the partner university abroad. ³Students must apply for a place within the framework of a double degree agreement at the department, responsible for organizing and carrying out their studies abroad, at Europa-Universität Viadrina Frankfurt (Oder). ⁴The study and examination achievements amounting to 60 credits to be provided under the respective double degree agreement are listed in the non-binding study plan in Annex 3 of this study-specific regulations and documented in the respective double degree agreements, which are announced to the students by notice board or the relevant electronic systems. ⁵The compulsory or compulsory elective character of the modules to be provided can be found in the module catalogue (Annex 1). ⁶The Examination Board decides on the recognition of these study and examination achievements made within the framework of a double degree agreement, in accordance with the regulations of the respective double degree agreement with the respective partner university, provided that these have been met in the agreement. ⁷Also note the following Appendices 1 and 3 to this order.

(12) ¹It is recommended that students complete internships before starting their studies and during the semester break as addition to their studies. ²Students are encouraged to seek practical experience, especially abroad. ³The faculty welcomes the efforts of students and student institutions and supports them in finding and organizing internships whenever possible.

§ 7

Forms of examination, organisation of examinations, admission to examinations (Additionally § 4 (2), § 10 (3) sentence 2, § 11, §§ 13 to 16, § 17 (3), § 18 sentences 3 and 4 ASPO)

(1) ¹According to §4 (2) ASPO, the qualification goals as well as the teaching and examination forms, including credits as well as the type and scope, are specified in the module descriptions. ²Examination achievements are provided in accordance with the respective module description as follows:

- 120-minutes written examination,
- oral examination of approximately 25 minutes per student,
- one or more home assignments as addition to the examination achievement (e. g. seminar paper),
- written examination of 90 minutes and one or more home assignments as addition to the examination achievement, or

- oral examination of approximately 20 minutes per student and one or more home assignments as addition to the examination achievement.

(2) ¹The examination board responsible appoints the examiners as well as - for course-related oral examinations with the exception of the last possibility of a repetition of these - the assessors. ²For the examiners of the Master thesis precede the provisions of § 17 (3) ASPO; for the examiners of the final colloquium precede the provisions of § 18 sentences 3 and 4 ASPO. ³The responsible examination board can, by decision, assign the responsibility for appointing examiners and assessors to the chairman and his or her representative.

(3) As a rule, the written exams and oral examinations for courses of the Faculty of Business Administration and Economics are combined in examination blocks at the end of the course or before the beginning of the next semester.

(4) ¹The responsible examination board shall determine the place and time for the written or oral examination and shall announce them by notice board or the relevant electronic systems. ²It may assign this task to the respective examiner. ³A necessary short notice change of examiner(s), date of examination or examination place for compelling reasons is permitted; it must be announced immediately in the manner described above. ⁴It is up to the students to pay attention at the notices or publications in electronic form.

(5) ¹A specific registration period (beginning and end) is to be determined for each written exam and for each oral examination and shall be announced by the responsible examination board. ²Paragraph 4, sentence 2 and sentence 4 shall apply accordingly. ³The students must register for the written exams and oral examinations within the registration period in the form determined by the examiner(s) and the Examination Office. ⁴In principle, the registration shall be made by means of the relevant electronic systems, unless a written procedure is exceptionally carried out. ⁵In the case of missing registration, participation in the relevant examination is impossible or the examination performance will not be evaluated.

(6) Only those who are enrolled at the Europa-Universität Viadrina Frankfurt (Oder) and have not lost their rights to take part in examinations in the corresponding module in an economic Master course of study at a university in the Federal Republic of Germany may be admitted to the examinations in this course of study.

§ 8

Master thesis, Final colloquium *(Additionally § 1 (2) sentence 2 no. 7, § 17 (7) sentence 3, (9) sentences 2 and 3, (11) sentence 3 and § 18 ASPO)*

(1) ¹The scope of the Master thesis is 21 credits and the working time is 16 weeks. ²The required page or

characters number of the Master thesis must be determined in written form by the first supervisor when the topic is being given. ³The topic of the Master thesis should have an international context. ⁴As preparation for the Master thesis students are recommended to submit at least one seminar paper during their studies.

(2) The Master thesis shall be written in German or English language.

(3) ¹In case of illness of the student, the working time for the Master thesis may be extended by the examination board upon a request by the student. ²The request shall be accompanied by an official medical report stating the physical or psychological effects of the illness and its expected duration. ³The determined length of the extension must be based on this. ⁴In the case of an illness, in which the processing time has already been extended by more than half of the regular processing time by the examination board, the Master's thesis can be returned at the request of the student. ⁵Sentence 2 applies accordingly.

(4) ¹If the Master thesis has been passed, a final public colloquium will take place in the form of an oral examination, in which the student, the first as well as a second supervisors of the Master thesis, who will be appointed in accordance with § 7 (2), sentence 3, second half-sentence, will take part. ²In this colloquium, the student shall present the results of his/her work, place them in a broader context and defend them against critical objections. ³The duration of the colloquium is about 25 minutes and amounts to 3 credits. ⁴The result of the final thesis must be announced to the student no later than one week before the final colloquium. ⁵The assessment can be viewed by the student after the results of the final thesis have been announced. ⁶The appointment for the review of the assessment is determined by the supervisors.

(5) For study degrees that are part of a double degree agreement, the double degree agreements, module catalogue and module description specify whether the Master thesis is to be written at the Europa-Universität Viadrina Frankfurt (Oder) or the partner university and where the final colloquium is to be held.

(6) For degrees that are part of a double degree agreement, the content of the Master thesis may, in deviation from § 17 (7) sentences 1 and 2 ASPO, be substantially identical with that of a Master thesis formerly or simultaneously submitted by the student to this or the partner university in the context of a double degree agreement, the existence of which is or was a prerequisite for the awarding of an academic degree.

§ 9

Evaluation of examinations *(Additionally § 23 (1) sentence 3, (2) ASPO)*

¹The assessment of examinations shall be carried out in accordance with the grades of § 23 (1) sentence 3a) and differentiated in accordance with

§ 23 (2) ASPO. ²In the case of non- business Modules, the assessment of examinations can also be carried out in accordance with the grades of § 23 (1) sentence 3 lit. b).

§ 10

Compulsory academic consultation (Additionally § 1 (2) sentence 2 no. 8, § 3 (3) sentence 2 and § 6 (1) and (6) ASPO)

(1) Participation in an academic consultation according to § 6 i. c. w. Section 3 (3) ASPO is obligatory for students in accordance with sections 21 (2) sentence 2 and 20 (3) sentence 1 of the BbgHG if they have not passed the Master examination within eight semesters.

(2) ¹The obligatory academic consultation shall be provided by the head of the responsible examination board. ²The obligatory academic consultation always takes place in the form of an individual conversation. ³After receiving a written invitation to the consultation in accordance with §6 (2) ASPO, the conversation usually takes place within four weeks. ⁴In order to prepare for this consultation, the head of the responsible examination board may request the faculty's academic advisers for support.

(3) ¹In the event of non-compliance with the concluded study agreement for a valid reason, immediately after becoming known, proof of the valid reason must be provided in written form to the head of the responsible examination board. ²In the event of illness as a valid reason, this must be proven by an official medical report, in particular in the case of request for resignation from an examination, extension of the working time for home assignments as examination, e.g. seminar papers, as well as extension of the working time for the final thesis or participation in the final colloquium. ³A request for consideration of other valid reasons must be made in written form and accompanied by appropriate supporting evidence. ⁴The responsible examination board determines whether there are valid reasons that justify the adjustment of the studies agreement and may authorize the chairperson, if a valid reason is acknowledged, to immediately adjust the study agreement together with the student concerned. ⁵If there are no valid reasons acknowledged, the regulations of § 6 (7) sentence 1 ASPO apply.

(4) A template of a study agreement is attached to these regulations as Annex 4.

§ 11

Commencement / Annulment

¹This program specific regulations become effective on the day following their publication in the official announcements of the Europa-Universität Viadrina Frankfurt (Oder) and apply to all students who enroll for this course of studies at the university from the moment they become effective. ²The subject-specific regulations for the International Business Administration (Master) program of the Europa-Universität Viadrina Frankfurt (Oder) from 16

October 2013 will no longer apply from 30 September 2020 on.

§ 12

Interim regulations

¹Students who were already enrolled in the International Business Administration degree program with the master's degree prior to the entry into force of these program-specific regulations may irrevocably apply in writing to the Examinations Office until March 31, 2024 for the General Study and Examination Regulations for Bachelor's and Master's degree programs (ASPO) at the European University Viadrina Frankfurt (Oder) dated January 27, 2016 to be applied to them. January 2016, last amended by the Amendment Statutes of November 2, 2016, in conjunction with these study program-specific regulations for the International Business Administration (Master's) degree program in the versions applicable at the time, shall be applied to them. ²Students according to sentence 1 who have not completed their studies by March 31, 2024, are transferred to these study program-specific regulations for the study program International Business Administration (Master) in conjunction with the General Study and Examination Regulations for Bachelor's and Master's Programs (ASPO) at the European University Viadrina Frankfurt (Oder) dated January 27, 2016, last amended by the Amendment Statutes dated November 2, 2016, in the respective applicable versions.

Annex 1: Module catalogue

Track-Modules

Unless otherwise stated, the Track modules and Research modules are compulsory elective modules.

Finance, Accounting, Controlling & Taxation (FACT)

- Advanced Issues in IFRS Reporting
- Aktuelle Entwicklungen im internationalen Steuerrecht
- Asset Pricing
- Asset Pricing (Seminar)
- Ausgewählte Themen in Finance, Accounting, Controlling & Taxation / Selected Topics in Finance, Accounting, Controlling & Taxation
- Banking
- BEPS-Seminar
- Besteuerung der Unternehmen
- Besteuerung von Mergers & Acquisitions
- Bilanzrechtsprechung
- Computational Optimization in Finance
- Current topics in management control research and practice
- Data Analysis and Visualization with R
- Data Storytelling in Finance
- Deutsche Abkommenspolitik
- Econometrics of Financial Markets
- Einführung in das deutsche Außensteuergesetz
- Einführung in das Europäische Steuerrecht
- Einführung in das steuerliche Verfahrensrecht (Abgabenordnung und Finanzgerichtsordnung)
- Gestaltungen im internationalen Steuerrecht
- Group Accounting and Group Auditing
- IFRS Reporting and Capital Markets
- International Business Taxation
- Internationale steuerliche Strukturierungen
- Introduction to Statistics and Data Science
- Machine Learning with R
- Market Microstructure Theory
- Market Microstructure Theory (Seminar)
- Microeconomics of Financial Markets
- Microeconomics of Financial Markets (Seminar)
- Nachfolgeplanung und Steuern
- Neural Networks in Finance
- Portfolio Management
- Quantitative Risk Management
- Seminar Bilanzrechtsprechung
- Seminar in Financial Reporting
- Seminar in Tax Research
- Statistical Methods in Artificial Intelligence
- Statistical Quality Control
- Steuerbilanzen
- Steuerstrafrecht
- Tax Technology
- Verrechnungspreise
- Wechselwirkungen und Spannungen zwischen den Steuerarten
- Wirtschaftsprüfung

Finance & International Economics (FINE)

- Angewandte Optimierung in ökonomischen Problemen
- Asset Pricing
- Asset Pricing (Seminar)
- Ausgewählte Themen in Finance & International Economics / Selected Topics in Finance & International Economics
- Banking
- Case Studies related to the Law and Economics of European Competition Policy
- Computational Optimization in Finance
- Data Analysis and Visualization with R
- Data Storytelling in Finance
- Econometrics of Financial Markets

- Economics of Climate Change
- E-Sports: Economics & Management
- European Economic Integration
- Introduction to Statistics and Data Science
- Machine Learning with R
- Market Microstructure Theory
- Market Microstructure Theory (Seminar)
- Master Seminar in Applied Economics
- Master Seminar Paper in Applied Economics
- Microeconomics of Financial Markets
- Microeconomics of Financial Markets (Seminar)
- Monetary Theory & Monetary Policy
- Neural Networks in Finance
- Portfolio Management
- Quantitative Risk Management
- Statistical Methods in Artificial Intelligence
- Statistical Quality Control
- The Law and Economics of European Competition Policy
- Wissenschaft Live - Berlin Applied Microeconomics Seminar

Data Science & Decision Support (DSDS)

Introduction to quantitative methods (compulsory, 24 Credits)

- Data Analysis and Visualization with Python
- Data Analysis and Visualization with R
- Introduction to Operations Research
- Introduction to Statistics and Data Science

Advanced Methods (elective, min. 24 Credits)

- Optimization with Metaheuristics
- Advanced Computational Optimization
- Management Science
- Simulation as Decision Support
- Statistical Models in Artificial Intelligence
- Statistical Quality Control
- Machine Learning with R
- Decision Support under Uncertainty
- Multi-objective Decision Analysis
- Econometrics of Financial Markets
- Advanced Methods of Data Science and Decision Support

Applications (elective, min. 24 Credits)

- Quantitative Risk Management
- Portfolio Management
- Neural Networks in Finance
- Data Storytelling in Finance
- Computational Optimization in Finance
- Introduction to Supply Chain and Operations Management
- Advanced Operations Management
- Emerging Topics in Logistics
- Advanced Business Analytics

Management & Marketing (M & M)

- Advancing Business Ideas
- Advancing Perspectives on Entrepreneurship
- Ausgewählte Themen in Management & Marketing / Selected Topics in Management & Marketing
- Business, Ethics & Responsibility
- Business Model Development: Idee, Konzept, Value Proposition, Markt
- Consumer Behavior
- Consumer Research Methods
- Culture, Leadership & Diversity
- Current Research on People, Work, Organization & Management
- Current Topics in Management Control Research and Practice
- Current Topics of Research in HRM & Organization Studies
- Das internationale Unternehmen
- Der Managementprozess: Fallstudien zur Unternehmensführung
- Die institutionelle Umwelt internationaler Unternehmen

- Grundlagen der Unternehmensnachfolge
- Intercultural Management Training
- Marketing Communication
- Marktbeziehungen internationaler Unternehmen
- New Perspectives in Management and Entrepreneurship Theory
- Planspiel zur Unternehmensführung
- Qualitative Forschungsmethoden
- Qualitative Methods: Case Study Research
- Quantitative Methods
- Research Methodology
- Seminar: "Hinsehen" - Kritische Perspektiven auf die globalisierte Welt
- Seminar Internationales Management
- Seminar Marketing
- Topics in Consumer Research
- Work, Organization & Change

Non-business Modules

In principle, all courses of the Faculty of Cultural and Social Studies and the Faculty of Law and courses of non-business/economics faculties of other universities are recognized as a non-business/ economic module if they are successfully completed with a graded and credited certificate of achievement, unless they are creditable in the bachelor's programs of the above-mentioned faculties or if they are introductory courses within the framework of the study of German law. Credit cannot be awarded for credits earned in the module "Practical Skills" of the Faculty of Cultural and Social Studies, language courses or soft skills such as internships.

Master thesis and final colloquium

- Master thesis
- Final colloquium

The module descriptions are published under the link <https://viacampus.europa-uni.de>.

Annex 2: Non-binding study plan for the International Business Administration (Master) program †

	Non-business/economics modules 3				6	2 / 150 / 6	module-dependent	module-dependent ♦♦	6/120
	Master thesis with final colloquium <i>(Compulsory, 24 Credits)</i>								
	Master thesis				21	0 / 630 / 21	self study	Master thesis	21/120
Final colloquium				3	0 / 90 / 3	self study	oral examination	3/120	
Credits / Semester		30	30	30	30	120			
SUM Teaching Hours (classes)		13	12	12	2	45			
SUM Total Workload (in hours)		900	900	900	900	3.600			
Total Workload (in hours) per year		1.800		1.800		3.600			

† Section 6 (9) stipulates that students must complete a semester of at least three months at a foreign university as part of their studies or, in accordance with Section 6 (10), in justified exceptional cases, must successfully complete examinations worth at least 42 credits as part of their studies, the language of instruction and examination for which must not be German. When planning your studies, please take into account at an early stage that there may be shifts in the non-binding study plan due to the modules offered at the foreign universities.

‡ A function-oriented subject-specific education exists if track-specific modules amounting to at least 60 credits (in the DSDS track at least 72 credits) have been completed.

♦ cf. § 7 Para. 1

♦♦ Pursuant to § 4 paragraph 2 ASPO, the module description specifies the way in which the certificate of achievement is to be provided.

Annex 4: Study agreement according to § 20 (3) sentence 3 BbgHG
(according to § 10 (2) in connection with § 6 (3) and (4) ASPO)

Name: _____ **Matriculation number:** _____
Study Program: International Business Administration **Desired degree:** Master of Science
Completed Semesters: _____

Already achieved, recognizable ECTS-Credits: _____ **Missing ECTS-Credits:** _____

Additional planning:

Semester	Module / Lecture	ECTS-Credits to be recognized

Individual terms to achieve the study objective:

Remarks:

If the requirements determined in the above agreement on the course of study are not met by the specified date in a justified manner, the student is to be deregistered in accordance with § 14 (5) sentence 2 clause 2 BbgHG.

In accordance with § 10 (3) of the study-specific regulations, in the case of illness, this must be proven as a valid reason with an official medical report. This applies in particular in the case of request for resignation from an examination, extension of the working time for home assignments as examination, e.g. seminar papers, as well as extension of the working time for the final thesis or participation in the final colloquium. A request for consideration of other valid reasons must be made in written form and accompanied by appropriate supporting evidence.

The agreement is to be signed between the student and the head of the examination board.
